

## Siri Sathorn – Caring For You

At Siri Sathorn we consider our guests part of our family and so we strive to meet all the provisos they set during their stay with us. From state-of-the-art in-room entertainment systems and enveloping sofas to all the modern accoutrements the business traveller of today requires.

Located in the heart of Bangkok's central business district, Siri Sathorn is situated on the doorstep of just about all the amenities that one could need. Through use of our complimentary Shuttle Bus Service, guests have easy access to the Skytrain, subway, hospitals and restaurants. Furthermore, as a part of the Beaufort Serviced Residence, Siri Sathorn is able to extend the type of welcome generally reserved for guests of five-star hotels.

Never resting on our laurels, the management team at Siri Sathorn is continuously busy focussing its efforts on maintaining the residence's first class reputation for excellence. Recent renovations have been extensive, proving that those behind the scenes are striving to create the perfect 'home away from home'.

Take, for example, the new laminated windows that prevent unwanted noises from the city streets from disturbing guests. The double-layered glass windows also help to maintain an ambient temperature thanks to the inventive air gap between the two panes. With no window joints, guests can marvel at the uninterrupted views of Bangkok's skyline day or night.

A specialised ozone air purification system has also been installed in each of the 111 one-and two-bedroom suites ensuring that bacteria,

mould spores and other types of airborne dust particles are cleaned from the air, leaving guest suites with a fresh aroma.

To ensure that guests staying at Sri Sathorn are kept in touch with the world, their offices and their loved ones, each room has been equipped with a leased line Internet connection. If, however, a guest wants to relax by the pool or sip a beer in our Liquid Bar and Café, thanks to our wide wireless local network access to the Internet is always available.

Being one of the most securely established serviced apartments in the capital, Sri Sathorn recognises the need to be constantly improving all services for its guests. More than a decade ago, the management at Sri Sathorn under the leadership of General Manager Khun Tanin Nonnatee, established the Executive Serviced Apartment Alliance Meeting (EXSAM), which today comprises 20 properties. Part of the alliance's remit is the exchange of information between members that deal with client services and marketing activities.

Every month members gather at a pre-arranged location to discuss important issues, exchange knowledge and generally have a good time. Building a community between members goes a long way towards ensuring that all our exclusive serviced apartments are working together.

Present members of EXSAM include the Riverfront, Mayfair Marriott, Emporium Suites, Sathornville, President Park Group, CNC Residence, B.U. Place, Royal Suite, Natural Ville, The Ascott Sathorn, Oakwood City Residence, Pantip Court, Somerset Group, Cape House, Centre Point Group and Sri Sathorn. The membership fee is B11,200 per year and the group is constantly growing. If you would like to join EXSAM, please contact Khun Pook or Khun Nam EXSAM's Secretary at Tel: 0-2266-2345, Ext 133.
